

PATENTED

SAVERING

FOUR-IN-ONE CAROUSEL-TYPE MEDICAL VENDING MACHINE

SaveRing is one of the most versatile medical vending machines currently available on the market.

With the ability to store and distribute up to 540 unique items, SaveRing combines 4 basic operations: allocate single-use items; rent, track and return multi-use tools; reserve or return used items.

All transactions are recorded and logged to the individual user.

Why SaveRing?

100% control of product usage and distribution (even at the patient level)

Perfect for fragile, heavier and liquid items (they do not drop in the receiving bin)

The front panels are not transparent, employees can only view the products on the touchscreen that they have access to

Extremely versatile product-vending capability and layout options

Get any items within 15 seconds

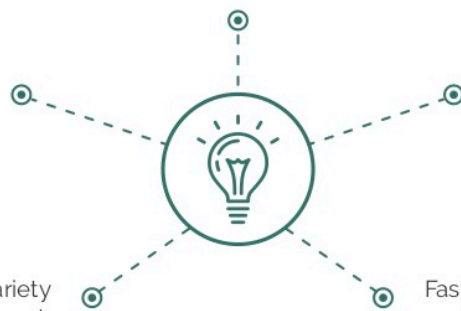

Fast and reliable support system

SaveRing is unique, because...

4-in-1 operation capability.

Our solutions communicate with you and your employees in their own language (multilingual display).

Increased configuration-variety with two-door layout.

Easy refilling thanks to our color-coded system and the turn-out display. You simply cannot make a mistake.

Fast and simple reconfiguration and refilling at the site.

4 in 1

SaveRing has 4 functions: it can simultaneously distribute, rent, return and also reserve products. For example, one position can be configured to only distribute the product inside, while another can rent the item within, meaning that after the work is done, the user returns the item to the same position. Returning is the collection and storage of used or dirty item, which essentially turns certain positions into a recycling point. Reservation allows the user to select products on the touchscreen, to retain them storefor themselves or their company units for up to 30 days ahead. All these options can operate simultaneously in one machine.

What can you store inside

Basically anything under 30 cm in height. Best for :

Detergents

Fragile medical devices

Medicines

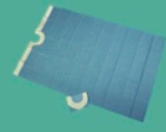

Sprays

Sterile tools

Single-use tools

Isolators

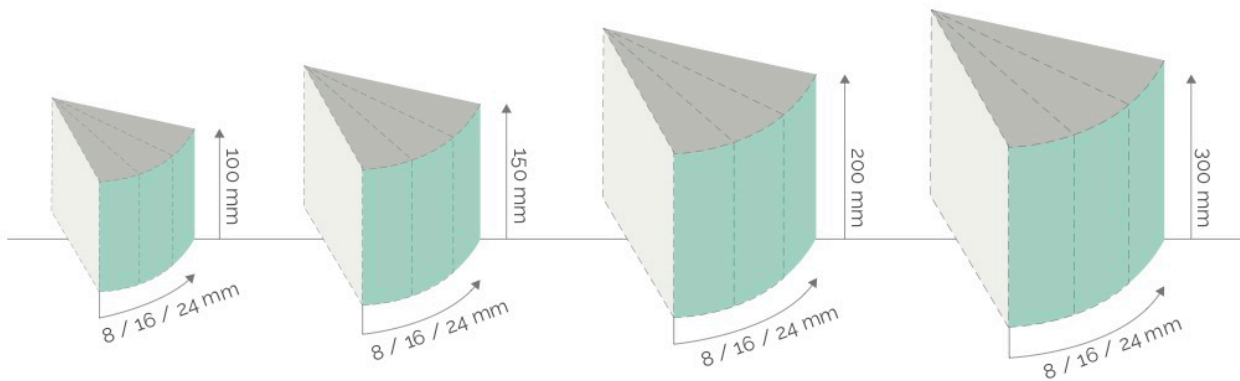

Medical sets

Specifications

- Capacity: 540 unique items
- LED signal for door openings
- Turn-out display for easy configuration and refilling

- Dimensions: 2000 x 1000 x 1100 mm
- Own mass: 430 kg
- Voltage 24V DC
- Color basic: white

We think in systems

SaveRing is managed by the same, easy to use software application – SaveLog – as the rest of the IVM machines. Thus it is easily scalable with IVM's other powerful solutions.

IDENTIFICATION

Company card (RFID)

BAR code

PIN code

CONNECTIVITY

Local server, Plug&Play, 3G network, Mixed VPN-Local closed network, SaveNetwork (VPN), IVM cloud
